

## **Congratulations on your purchase of a ROYAL MARINER® Ship's Clock**

### ***Mounting your Clock***

*The location of your clock is primarily is a matter of choice, but remember it is not waterproof*

- *Avoid placing in direct sunlight, near to or above heating/air conditioning outlets, heaters or cooking appliances*
- *Avoid placing near windows, hatches, ports, under dorade vents etc to protect where possible from salt laden air*
- *Avoid strong magnetic fields caused by electrical cables, speakers, microwaves, TV, radio, transmitting aerials*

*Mounting screws are provided for use on wood surfaces. Masonry or plasterboard walls will require extra fasteners*

### ***Use and care of your Clock***

*This clock requires a 1.5 volt battery. Alkaline types AA, UM3, LR6, 15A are suitable. Use high quality only.*

*Open the front hinged part of the case to allow access to the battery compartment and to the clock setting knob.*

*Battery life should be 1 year. Do not leave flat batteries in the clock, as they may leak and cause extensive damage.*

*Keep the battery contacts terminals very clean. The clock draws little current, so dirt or film can easily stop the clock.*

*Wipe the clock frequently with a clean cloth. Brass models benefit from an occasional polish with Brasso or similar.*

### ***Your guarantee of quality***

*In the event of malfunction Cruising Electronics will, at their discretion, repair or replace the unit, providing that:*

*Malfunction has occurred within 36 months from the date of purchase - proof of purchase is required*

*The unit has not been exposed to any fluid, corrosive or hazardous substance, or excessive airborne particles*

*The unit is returned freight paid to Cruising Electronics or their nominated agent*

*Please note that under no circumstances can Cruising Electronics be held responsible or accept liability for any consequential damages or loss, incurred as a result of installing or operating this clock*
